

WINDA ID Required for All GWO Training Courses

In 2016, Global Wind Organisation (GWO) launched their Global Wind Industry Training Records Database – WINDA.

Trained individuals are now required to register as Delegates on the WINDA database. After registration, Delegates receive a WINDA ID, which must be given to your training provider before you start the course.

To obtain your WINDA ID:

- Go to <https://winda.globalwindsafety.org/>
- Register as a Delegate
- Fill in the form using your personal email address
- Using a work email could result in losing your WINDA ID & password if you change jobs and lose access to that email account. Your training records will then be lost!

We cannot process your GWO certification without your WINDA ID. Failure to provide this will delay your certification.

For more information on GWO's WINDA Database, please visit:
