

## PHOENIX Pro rescue harness

**H110**

**Designed for fire and industrial rescue teams working in confined space, vertical rescue and fall arrest. Suitable for use with back-mounted breathing apparatus**

**Features:**

- Quick and easy to fit
- Highly durable and comfortable to wear
- Integral back panel
- Sternal connection loop highly visible to aid recognition
- Semi-circular screwlink front attachment point
- High rear attachment point
- Protected leg loops
- Adjustable locking side buckles
- Captive buckles with large tabs

Integral back panel helps to maintain the structure of the harness allowing rapid donning.

Sternal connection loops are in a high visibility colour for ease of recognition and have improved wear characteristics, whilst permitting the close ergonomic fit established in previous generations.

Semi-circular screwlink permits safe multi-directional loading for casualty attachment.

Front attachment point is rated for fall arrest, it can be used for lowering or raising and suspension. Connector remains in position even if harness adjusted to fit.

Rear aluminium attachment point is rated for fall arrest, lowering, raising and suspension. It is positioned high to be compatible with breathing apparatus and is reachable by the user.

Additional wear protection on the leg loops.

Adjustable side buckles allow for added comfort and sizing, but lock to prevent accidental release.

Buckles are captive to prevent disassembly and with large tabs for easy adjustment even wearing gloves.

**Options:**

H11L Panel jacket, std leg buckles, large - Torso 95-165cm Thigh 65-145cm)

H11QR - Panel jacket, quick leg buckles

H11Q - Mesh jacket, quick leg buckles

**Specifications:**

*NB: specifications and colour may change without notice.*

Size:	Universal	Attachment Points:	
EN Test Mass:	150kg	Sternal	
Loading:	150kg	Dorsal	
Conformity:	EN361, EN1497	Harness Measurements	
Materials:	Polyamide, Aluminium Alloy and Plated steel screwlink.	Torso	78-130
Weight (kg):	1.29	Waist	-
Industries:		Thigh	65-110

**All our PPE, rescue and lifting equipment have both UKCA and CE conformity where applicable**
