

Rope access kit (Vector)

WK23

High specification industrial rope access kit with innovative rope devices

The rope access work kit is designed to be used straight out of the bag and features our new, innovative advanced rope devices Vector and Quantum.

This work kit has been recently updated to include the EXTOL rope access harness and integrated SYNC chest ascender, a 4 step foot loop in place of the three step, and a triple action alloy krab to replace the steel screwgate used with the descender.

The EXTOL rope access harness features a unique design to increase comfort and make ascending easier and more efficient.

Designed for rope access and rope rescue.

Quick connect leg buckles for rapid fitting.

Pulsar ascender has a high load rating with double attachment holes.

Individual products in this kit:

- EXTOL - Full Body Rope Access Harness (standard)
- SYNC - Integrated Chest Ascender
- QUANTUM Back-up Device
- D35 Vector Descender
- DUON Technical climbing helmet
