

EXTOL Integral rope access harness, QC

H22QI

Full body quick connect Rope Access harness with integral Sync

Features:

- Front and rear attachment points
- Large waist D-ring for multiple attachments
- Reinforced gear loops with 20kg SWL
- Folding side D's
- Integral Sync chest ascender
- Integral work seat attachment points
- High lumbar support with shoulder, waist and leg padding
- SafeLock™ quick connect leg buckles
- Chest harness replaceable with/without integrated Sync
- Chest section can be replaced with integrated Sync ascender version, no tools are needed

Integrated Sync ascender sits snug against the chest section for efficient ascending.

Attachment points reduce movement to an absolute minimum for optimum comfort and efficiency.

Folding side "D" rings enable use to the front and rear or move back to reduce bulk when not needed.

To add, remove or replace the Sync ascender, simply remove the chest harness connector and unthread rear buckle webbing and replace with new Corona chest harness with (H52I) or without integrated Sync (H52).
