

EXTOL rope access harness, QC

H22Q

Full body quick connect harness with integrated chest ascender connection

Features:

- Ascender connection orientates ascender close to the chest
- Ascender can be removed from harness without the need for tools
- Front and rear attachment points
- Large waist D-ring for multiple attachments
- Reinforced gear loops with 20kg SWL
- Folding side D's
- Integral work seat attachment points
- High lumbar support with shoulder, waist and leg padding
- SafeLock[™] quick connect leg buckles

SYNC attaches directly to the EXTOL harness, no extra connectors are required.

Ascender sits tightly against the chest section for efficient ascending.

Attachment points reduce movement to an absolute minimum for optimum comfort and efficiency.

Ascender is removable for replacement, no tools are required, simply remove the harness connector and unhook the SYNC.

Harness size options: standard or large.
Version
