

CASCADE edge protector

MR75

Heavy duty stainless steel rope protector complete with cord lanyard for attachment to structure.

Durable stainless steel construction.

Suitable for a range of different situations:

- Brick, concrete - buildings & walls
- Metal - hatches, walkways
- GRP - WTG Nacelle

Attachment lanyard with adjuster for simple, quick attachment to the structure.

Asymmetric shape for increased stability.

3 guides hold ropes in position and keep twin ropes separate. Security cord can be used to help keep ropes within the guides if required.

Rounded edge profile reduces friction when hauling or lowering.

Base plate sizes:

Width 125mm
Length 150mm
Depth 100mm

Rope guides 30mm apart
