

Suspension relief footloop

MMFLS

For use in preventing suspension syncope

Provides support for both feet allowing the user to stand up, relieving pressure on the legs to prevent suspension syncope occurring.

Portable footloop for use with any harness

Sealed in robust compact unit until needed

Easy to deploy - in the event of a fall the strap can be deployed with one hand

Easily adjustable to fit different users

Can be used to assist others in rescue situations

Retro fits to all heightec fall arrest harnesses and those of most other manufacturers.

Includes 2 screwlinks for attachment
